

New!

Pro Dromi[®] Up

Loose housing with guaranteed less mortality!

- ✓ Lift floor saves up to 80% of crushed piglets
- ✓ 15 years of experience
- ✓ Perfect grip and hygiene for sow and piglets with the Pro Grip floor

Easy working with Pro Dromi® Up

When the piglets look beautiful, everything else in the farrowing room is good. Health, climate and calmness are in order. Yet this may be difficult to achieve with, for example, fast changing staff.

The Pro Dromi® Up enables every farmer to work with loose housing without the risk on piglet crushing using the **Vari Free** lifting floor

Moveable floor in loose housing

Combine the benefits of loose housing with the safety of a moveable floor during the first 48 hours

- ✓ Save 80% of your crushed piglets
- ✓ Automatic deactivation of floor when crate is opened
- ✓ Optimal lying comfort without edges when the floor is down

Optimal macro- and micro-climate

Ensure better sow and piglet performance by continuous fresh air for the sow and a save and warm nest for the piglets

- ✓ Fresh Nose Ventilation
- ✓ Heated waterbed
- ✓ Easy Climate Cover
